

National pavilions at bauma CONEXPO INDIA

bauma CONEXPO INDIA 2018 features four international pavilions. Exhibitors will showcase their products and technical expertise and present their companies within two pavilions from China, one pavilion from Germany and one from Spain. The pavilions are supported by relevant associations and governments. Meet the pavilion exhibitors and take the opportunity to converge and discuss business prospects.

The pavilions are located in Hall 1 and Hall 2. For an overview, please see [the map of the trade fair venue](#).

Detailed information on the four pavilions will follow by mid of October 2018. Meanwhile, you can contact the organizer under info@bcindia.com for any questions.

Spanish Pavilion

Meet Spanish Pavilion at BAUMA CONEXPO INDIA 2018

Due to the growth of the industry of machinery, components and equipment for construction, public works and mining in Spain, our high standard companies want to share with the Indian market their products and experience.

Currently, the Spanish Construction Equipments are exported all around the five continents, reaching almost the 85% of the total turnover. This, together with the fact that this industry employs more than 7.300 people in the country with an entire revenue of 1.7 bn € per year, do nothing other than prove the good quality and the competitiveness of our products all around the globe.

ICEX (Spain Trade and Investment), as a public business organization which works worldwide with the objective of promoting the internationalization of Spanish companies, along with ANMOPYC (Spanish Manufacturers Association of Construction and Mining Equipment), bring you the perfect environment to improve the business of both Spanish and Indian companies sharing ideas and knowledge, finding partnerships and showing trends.

In the 2018 edition, the Spanish Pavilion includes the following companies:

- ALSINA: solutions for concrete structures.
- IRUNA Brakes: designs, develops, manufactures and produces high performance brake systems.
- MOLDTECH: manufactures equipment for precast concrete plants
- ULMA: designs, manufactures and distributes concrete formwork and scaffolding solutions

In addition, representatives of the Economic&Commercial Office of Spain in India will be located at the Spanish Pavillion to attend you and brief you about the industry, our potential synergies and possible ways of collaboration between Indian and Spanish companies.

We invite you all to visit us and discover our industry full of new opportunities for a prosperous future together. Our companies will be displayed at the Spanish Pavillion located in Hall 1.

Looking forward to meeting and showing you all we can offer.
